To pass this bootcamp

- 80% attendance rate to earn Certificate and to retake bootcamp at no cost.
  - We'll have 40 days of class. You can miss 8 days. Anymore than that would need a doctors note.
  - Online students need daily interaction with their assigned TA for attendance to count.
  - If you are not going to be in class due to work, trips, etc. then please let me know beforehand. It is up to you to make up the work.

- PASS/FAIL grading system based on two metrics. You either PASS or FAIL.
  - Did the student make an attempt?
  - Is the code organized and neat?

Homework

- There will be homework nightly.
    - Going through exercises
    - Finishing/Working on a project
    - Recreating a site
    - Coding through a problem

- Homework will be graded using the PASS/FAIL system.

What you can expect

- You can expect to spend a significant amount of time coding outside of the classroom.
- This bootcamp is very intensive. We will be moving quickly. If you fall behind, we expect you to spend time outside of class to catch up by talking with other students or one of the TA's. We will not slow down for you to catch up.
- You will NOT learn everything through this bootcamp. It is impossible to know everything. This bootcamp will give you the foundation to be able to learn many new frameworks/languages
- Graded Homework Nightly.
- You WILL get stuck and frustrated. Coding is very challenging but that's what makes it fun!
